Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

Open article

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We Statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
Today generation,many specially abled peoples are faces many problems and they have many goals to achieve and not to communicate to others

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

ER.SIVAPRIYA

Communication should be universal without any barriers or limitations.

supported to develop an effective, efficient and reliable means of independent communication

A.SHAMEERA

In emergency times conveying their message is very difficult.

It is very difficult for mute people to convey their message to normal people.

Communication is an important right. Sometimes people with disabilities have the need for supports due to complex communication needs.

Speak directly to the person rather than the person with them

Since normal people are not trained on hand sign language.

AI technology can apply to any type of disability profile.

M.YOGESHWARI

only refer to the person's disability if necessary or relevant

Research institutions and medical facilities are using the ability to analyze massive data sets to sequence the human genome

N.YAMINI

Communication should be universal without any barriers or limitations.

Developing an app will support this vulnerable society of impaired people and enhance communication among people.

avoid saying anything that implies the person with disability is superhuman, courageous or special

develop new forms of treatment, accelerate and improve patient care, and better manage electronic

Our objective is to blind deaf and dumb within society and make them able to use their personal computers more effectively and efficiently

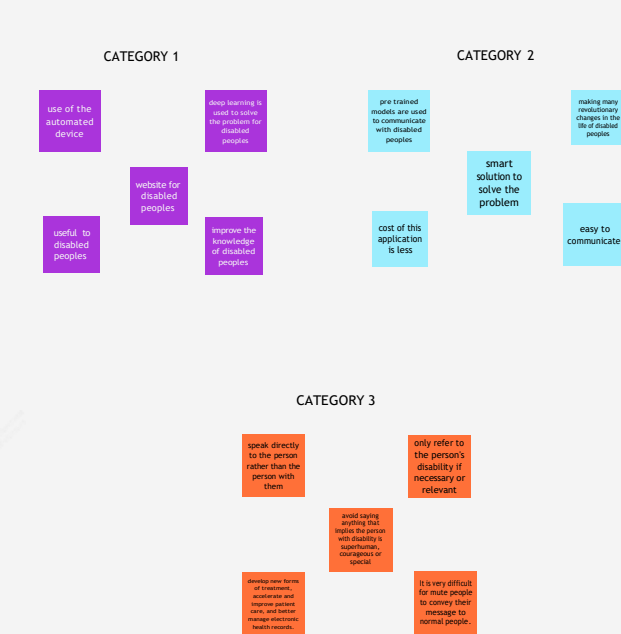

Neural networks can solve somewhat complicated issues at a much easier level concerning the complexity of algorithms

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

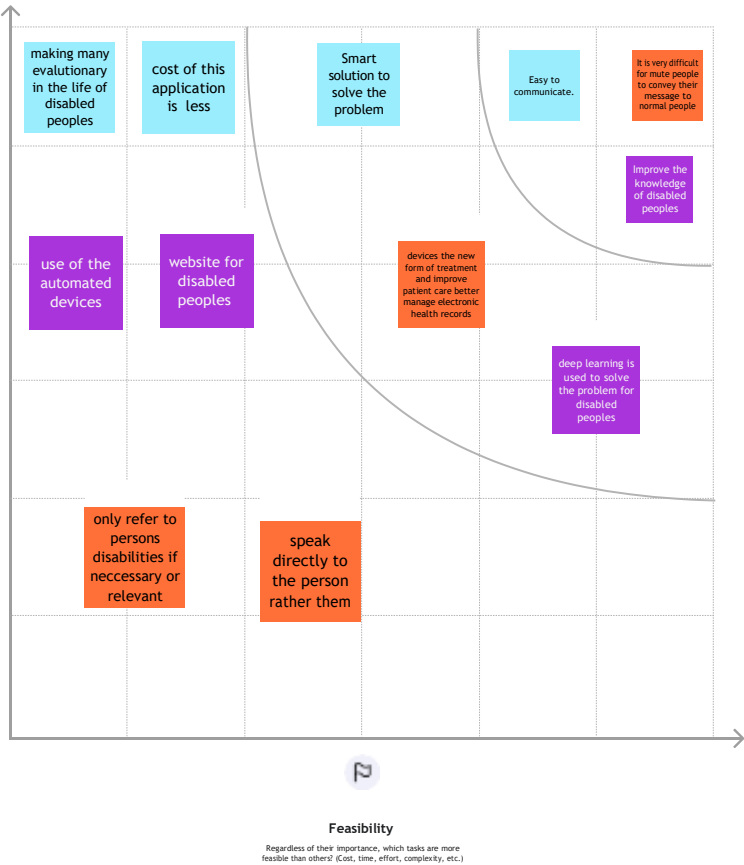

20 minutes

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural

Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural

Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint

Define the components of a new idea or strategy.
